Hiring Manager
WorldFish Recearch Program

Dear WorldFish Recruiter,

Thank you for the opportunity to apply for the Data Scientist - R Developer role at your company. After reviewing the job description, it is clear that you are looking for a candidate that is very familiar with and willing to contribute to the research and development of innovative data-driven approaches and the integration of technology innovations to support the goals of the WorldFish - CGIAR Research Program which is to foster the assess of the developing countries to aquatic foods in a sustainable way. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform the above responsibilities.

I am a detail-oriented and naturally curious college student (Bachelor of Architecture) currently attending Obafemi Awolowo University. My background in Architecture has nurtured my curiosity for solutions to environmental issues with considerations for sustainability. During the course of my academic career, I managed to accrue several months of intensive training in data science through verified certification programmes coupled with the experience of working for the DSSQUAD Team (a gloabl team of data science professionals) in a quality assurrance role in my free time, where I acquired valuable professional skills such as real-time data processing, programming ethics and project lifecycle management and largely contributed to the success of the team projects by assessing the quality of data products developed at various stages of the projects lifecycle. I believe I will leverage these abilities and experiences to support the goals of the WorldFish Research program.

In both my professional and academic life, I have been consistently praised as diligent by my supervisors and peers. Whether working in academic, professional or extra-curricular projects, I apply proven analytical, critical thinking and teamwork skills, which I hope to leverage into the Data Scientist - R Developer role at the WorldFish Reaearch Program.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit the WorldFish Research Program. Please contact me at 234-704-998-6998 or via email at abdulmateenqamardeen@gmail.com to arrange for a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,
Abdul-Mateen Qamardeen
